BEFORE INSTALLING THIS UPGRADE

Make a backup of your Spectra databases before installing this upgrade. If for some reason, the upgrade fails or there is an issue in the new version that prevents you from using the upgrade, having a final backup before the upgrade may allow you to reinstall the previous version and resume working. It is recommended you read the **Installation Guide** before beginning the installation process or the **Upgrade Guide** if you are running the upgrade patch.

GENERAL

SpecwinU Query

We have added new queries to **SpecwinU**.

GLCurrentPeriodMTDandYTD – This query will display Month (MTH) and Year to Date G/L Account balances where there has been activity, based on date entered, MTH and YTD Budget and MTH and YTD Variance.

GLCurrentPeriodMTDandYTDAllAccounts – This query will display all Month and Year to Date G/L Account balances based on date entered, MTH and YTD Budget and MTH and YTD Variance for all G/L Accounts, whether there has been activity or not.

These new queries will prompt you to enter the building ID or an asterisk (*) for all buildings, the Calendar Year and the Calendar Month.

Note: These queries compile and display details from the queries **GLCurrentPeriod**, **GLCurrentPeriodAmountsMTH** and **GLCurrentPeriodAmountsYTD**. These 3 queries are not intended to be run independently.

Compact, Backup and Restore Tool

We have made couple of improvements to the Compact, Backup and Restore tool, and you will see some different progress message dialogs during the Backup and Restore processes. We have also added a separate progress bar for each file.

Restore Tool:

Clients reported that they were not able to use the Restore tool on zip files 750 MB or larger. The Restore Tool has been improved to handle larger zip Files.

Compact Tool:

The Compact process would error out when trying to compact data accessed via UNC path using the servers' IP address. A code change has been made to prevent the compacting error.

Security Module – Access Codes

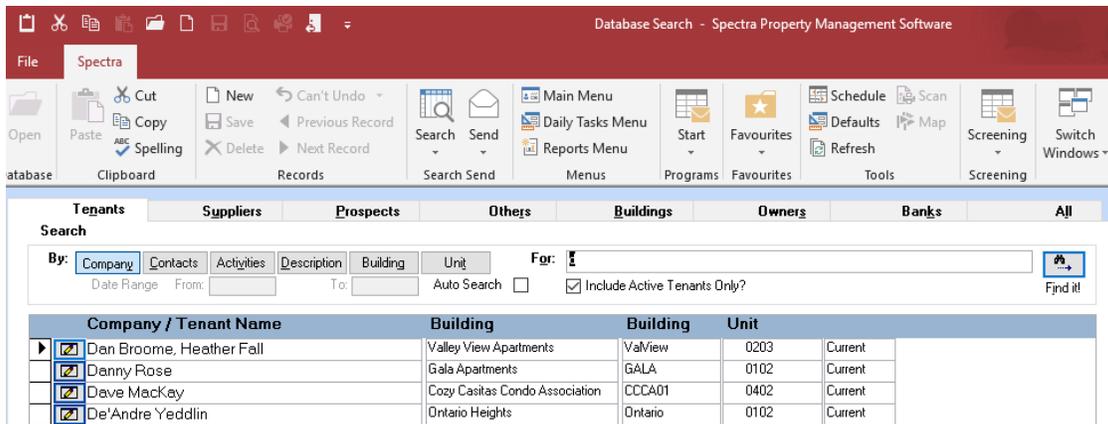

When creating **User Access Codes** and setting the menu item “**User Data**” as “**Inquiry Only**”, users were not able to change the label/definition of the record, but they were able to change the text in the User Data fields. This has been changed. Users who are assigned an access code with this menu item set as “**Inquiry Only**” will not be able to make any edits in the User Data records.

Menu/Bar	Menu/Category	Item	Inquiry Only
Tab	Tenants	Legal Actions	<input checked="" type="checkbox"/>
Tab	Tenants	Notes	<input checked="" type="checkbox"/>
Tab	Tenants	Options	<input checked="" type="checkbox"/>
Tab	Tenants	Other Space Charges	<input checked="" type="checkbox"/>
Tab	Tenants	Parking	<input checked="" type="checkbox"/>
Tab	Tenants	Pre-Payments	<input checked="" type="checkbox"/>
Tab	Tenants	Prospect Information	<input checked="" type="checkbox"/>
Tab	Tenants	Recoveries	<input checked="" type="checkbox"/>
Tab	Tenants	Report Notes	<input checked="" type="checkbox"/>
Tab	Tenants	Retail Sales	<input checked="" type="checkbox"/>
Tab	Tenants	Tenant Set Up - All	<input checked="" type="checkbox"/>
Tab	Tenants	User Data	<input checked="" type="checkbox"/>

“Open Database” Button

We have added an “**Open Database**” button to the “**Quick Access**” tool bar which will allow users to open the database from any screen in Spectra, including when viewing reports. For example, when viewing the Rent Roll, you notice an amount that you are not sure is correct. Instead of having to exit the report and go to **Find Tenant > Charges**, you can now click

“**Open**” , find the tenant of interest and drill down to view the tenant record.

Company / Tenant Name	Building	Building	Unit	Current
<input checked="" type="checkbox"/> Dan Broome, Heather Fall	Valley View Apartments	ValView	0203	Current
<input checked="" type="checkbox"/> Danny Rose	Gala Apartments	GALA	0102	Current
<input checked="" type="checkbox"/> Dave MacKay	Cozy Casitas Condo Association	CCCA01	0402	Current
<input checked="" type="checkbox"/> De'Andre Yeddlin	Ontario Heights	Ontario	0102	Current

Once you have finished viewing the record, click “close” to search for another tenant or click “close” again to return to the report.

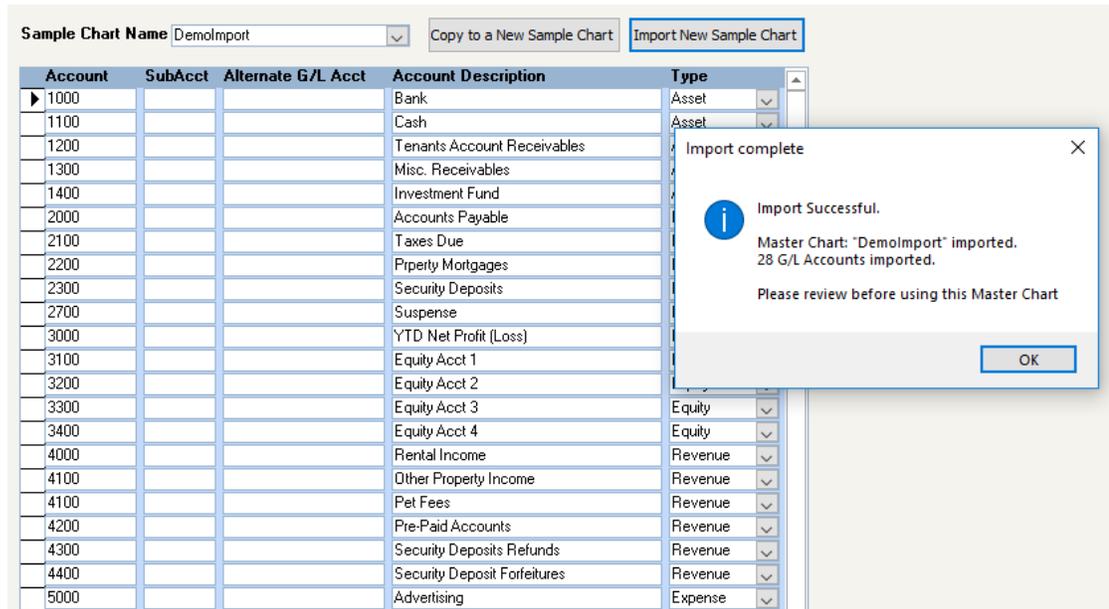

This feature works from all report screens and functions in the same way as the **Find Menu**. You can drill down into any database records using the appropriate tab for **Tenants, Suppliers, Prospects, Others, Buildings, Owners, Banks** and **All**.

Note: If you make any changes, you will have to generate the report again to reflect those changes.

Import Sample Chart of Accounts

We have added the ability to import a new **Sample General Ledger Chart of Accounts**.

To import a new sample chart of accounts; go to **System Tasks > Spectra Utilities > Update Sample Chart of Accounts > click Import**.

Account	SubAcct	Alternate G/L Acct	Account Description	Type
1000			Bank	Asset
1100			Cash	Asset
1200			Tenants Account Receivables	Asset
1300			Misc. Receivables	Asset
1400			Investment Fund	Asset
2000			Accounts Payable	Liability
2100			Taxes Due	Liability
2200			Property Mortgages	Equity
2300			Security Deposits	Equity
2700			Suspense	Equity
3000			YTD Net Profit (Loss)	Equity
3100			Equity Acct 1	Equity
3200			Equity Acct 2	Equity
3300			Equity Acct 3	Equity
3400			Equity Acct 4	Equity
4000			Rental Income	Revenue
4100			Other Property Income	Revenue
4100			Pet Fees	Revenue
4200			Pre-Paid Accounts	Revenue
4300			Security Deposits Refunds	Revenue
4400			Security Deposit Forfeitures	Revenue
5000			Advertising	Expense

The import must be in .CSV format and contain the following headers;

File Requirements	Name to Call the new Chart of Accounts. This field will allow up to 50 Alphabetic Characters and is required for import.	General Ledger Account Number. This field must be a number and is required for the import.	General Ledger Sub-Account. This field may be Alpha-Numeric, up to 10 characters and is optional.	General Ledger Alternate Account Number. This field may be Alpha-Numeric, up to 50 characters and is optional.	General Ledger Account Description. This field will allow up to 50 Alphabetic Characters and is required for import.	General Ledger Account Type. This field will allow up to 10 Alphabetic Characters and is required for import. The "type" must be either; Asset, Liability, Equity, Revenue or Expense. If the Account Type does is not one of the defined values, the import will be rejected.
File Headers	ChartName	GLNumber	GLSubAccount	AlternateAccount	AccountDescription	AccountType
Details	Demolmport	1000	10.001		Bank	Asset
	Demolmport	1100	01.001		Cash	Asset
	Demolmport	1200			Tenants Account Receivables	Asset
	Demolmport	1300			Misc. Receivables	Asset
	Demolmport	1400			Investment Fund	Asset
	Demolmport	2000			Accounts Payable	Liability
	Demolmport	2100			Taxes Due	Liability

When keying this into Excel, before converting to .CSV for import, you will need to add a single apostrophe before a number with a leading zero. E.g.; '010.001.

Note:

The **ChartName** should be a unique name to this chart of accounts. If you attempt to import a sample chart of accounts with the same chart name, an error will pop up advising that the import failed because that **ChartName** already exists.

Cost Code Master Import failed

Unable to process this import due to the following issue(s):

- Chart Name already exists: DemolImport

Correct the data in the import file and and try the import again.

OK

The **AccountType** must be either; **Asset**, **Liability**, **Equity**, **Revenue** or **Expense**. If any other value is used, the import will be rejected.

BUILDING

Find

Building Supplier Service

The supplier phone number will now display for suppliers added under “**Building Supplier Service**”.

Edit Suppliers / Service Adobe Mills

Include Supplier Contact Information in Supplier Lists?

Sequence Number	<input type="text" value="11"/>	
Service Code	<input type="text" value="Landscape"/>	Landscaping
Primary Supplier	<input type="text" value="Romero Landscapes"/>	9081 N. 19th Avenue
		(602) 666-6666 Phoenix, AZ

To see the supplier’s contact information when choosing a supplier, check “**Include Supplier Contact Information in Supplier List?**”, the supplier contact information will display in the drop-down.

Add Suppliers / Service

Setup / Edit Journal Entry Template

It was reported that attempting to re-sequence a template with over 1000 records would result in the error:

"cmdReSequence: Error #6 Overflow"

A code change has been made so that larger records will re-sequence without error.

Select a Report

Building Master Listing

We have fulfilled a request to have the Building Federal Tax ID number display on the Building Master Listing. The Tax ID will display under the Tax Information section on the report.

Start a Task

Background Screening – Update Screening Status

If a user attempts to run a new screening, or requests to update status on a screening result that has been overridden approved, a message will pop up warning the user that this screening has been overridden approved and continuing the action will cause the status to reset based on the results from the new screening.

Background Screening Applicant List

Building: [dropdown] Applicant Status: [dropdown] Household All

Unit: [dropdown] Date Applied - From: [dropdown] To: [dropdown]

Applicant: [dropdown] Screening Status: [dropdown]

Referral Source: [dropdown] Refresh List Clear Search

Applicant	Building/Unit ID	Status	Date Appli	Screening Status	M.A.R.	Relationship	First Name	Middle Name	Last Name
Screening Test Three	GALA / 0205	Applied	25-Feb-2019	Declined		N/A Head of Household	Screening	Test	Three
Serge Aurier	OSBGS / 0101	Applied	30-Jan-2019	Overridden Approved		N/A Head of Household	Serge		Aurier
Test Screening	GALA / 0104	Applied	01-						Screening
Test Screening 2	ValView / 0205	Applied	25-					2	Screening
Test Screening 4	ValView / 0402	Applied	03-						Screening 4

Warning

 The current screening status is: Overridden Approved
 If you continue with this request, the screening status will be reset based on the results from On-Site

Do you want to continue with your request?

Yes No

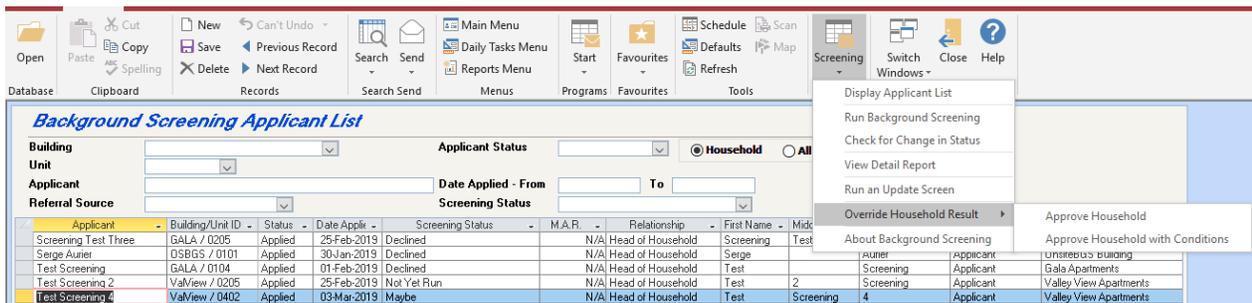

If the user selects “Yes” the request will be sent to On-Site. If the user selects “No”, the request will be cancelled.

Request Cancelled

Override Screening Result – “Maybe”

Some screenings may return a result of “Maybe”, based on parameters set by On-Site. This result did not allow for the decision to be overridden to move in the prospect. A change has been made allow a result of “Maybe” to be overridden.

Begin Month Charge Rent

When running the Begin Month Charge batch and selecting the option to **Print Description Type - Extended Description – Parking / Other Spaces**, the summary totals at the end of the **Begin Month Report** were not summarizing correctly. The summary section was pulling in each individual tenant parking/other spaces charges causing an alignment issue making the totals appear to be inaccurate. This has been corrected. The Summary will now display a total for each charge code.

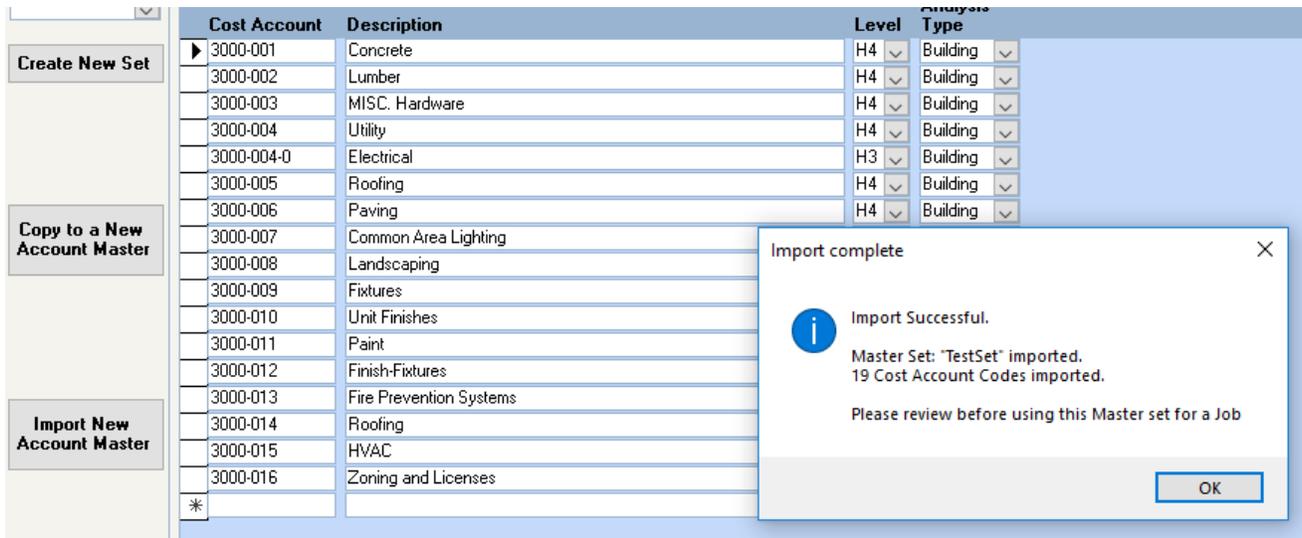

Rent Commercial	3000	17,387.00	3000	-17,387.00
Lease Type Totals:		54,714.00		-54,714.00
Building: Plaza Towers - Totals:		54,714.00		-54,714.00
Common Area Estimate	\$2,500.00			
Parking	\$51.00			
Rent Commercial	\$52,163.00			
** Total Charges	\$54,714.00			

JOB COST

Start a Task

Set Up Cost Account Masters

We have created an Import feature to make adding new Job Cost Account Masters more convenient. To import a new Job Cost Account Master list; go to **Jobs > Start a Task > Update Cost Account Masters** and click **Import**.

Cost Account	Description	Level	Type
3000-001	Concrete	H4	Building
3000-002	Lumber	H4	Building
3000-003	MISC. Hardware	H4	Building
3000-004	Utility	H4	Building
3000-004-0	Electrical	H3	Building
3000-005	Roofing	H4	Building

AP Invoice Batch Import

We have made a change to the AP Import process to handle invoice amounts that contain more than 2 decimal places. The import process will automatically round to the nearest cent. In the example below, the system has rounded the amount keyed as \$280.7585 up to \$280.76, whereas the invoice keyed as \$115.2002 was rounded down to \$115.20.

```
VendorID, VendorName, BuildingID, BankID, InvoiceNumber, InvoiceDate, PostingDate, PaymentDueDate, InvoiceAmount, GLAccount,
InvoiceDescription, VoucherNumber, PurchaseOrderNumber, ReferenceNumber, LineDescription, CostCode, MaintCode, UnitID, EnergyCode,
EnergyUnits, JobCode, PhaseCode, SubPhaseCode, CommitmentNumber, CostAccount, CostAmount, RetentionAmount, JobCostType,
LenderLoanDraw
CZ110, Comfort Zone, Adobe, 2, 2019-6-2234568-14, 6/1/2019, 6/1/2019, 6/15/2019, 280.7585, 4280, HVAC-Summer
MTCE, .....
CZ110, Comfort Zone, Arlin, 54, 2019-6-2234568-25, 6/1/2019, 6/1/2019, 6/27/2019, 115.2002, 4280, HVAC-Summer
MTCE, .....
```

<input checked="" type="checkbox"/>	Comfort Zone	2019-6-2234568-19	01-Jun-2019	\$280.76	\$280.76	
<input checked="" type="checkbox"/>	Comfort Zone	2019-6-2234568-20	01-Jun-2019	\$115.20	\$115.20	

TENANTS

Find

Tenant Charges

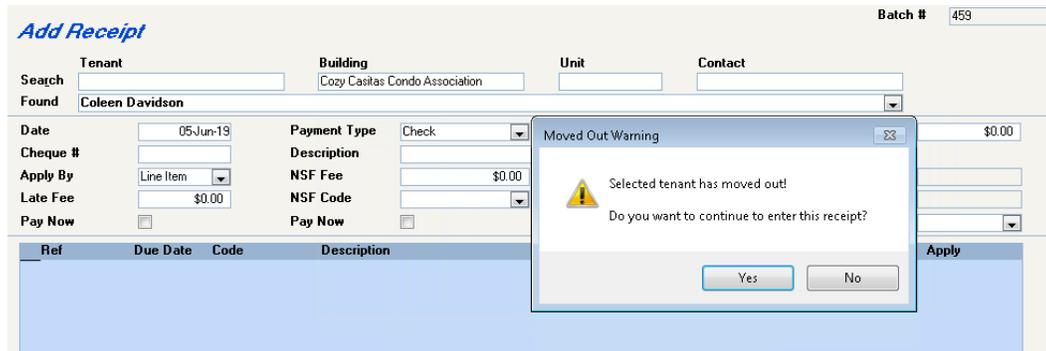

We have added an enhancement to make it easier to distinguish between current charges and historic charges. Once a charge is marked "History", the line item will be shaded blue. This enhancement has been applied to;

- | | |
|-------------------------------|---------------------------|
| 1. Charges | 8. Recoveries |
| 2. Other Space Charges | 9. % Rent |
| 3. Parking Charges | 10. Legal |
| 4. Commission | 11. Collections |
| 5. Amortization | 12. Insurance |
| 6. S.L. Rent | 13. CPI |
| 7. Pre-Payments | 14. Porter's Wage. |
